

Fixed Fee, Unlimited IT Support

Technology is the number one budget item after human resources, yet it is the least understood. Use our expertise to help you reduce your overall IT costs and increase the service quality and reliability of your IT infrastructure.

One of the major challenges in maintaining a computer network is trying to predict what will fail and when. With our proactive managed services solution, we can prevent many network failures from ever happening. By combining regular preventative maintenance and comprehensive real –time monitoring of your critical devices, we ensure the reliability and stability of your IT assets. A regularly maintained network means fewer failures, yielding higher productivity and savings on support costs for you.

Key Benefits

- No more surprise bills when something has gone unexpectedly wrong
- In the past, the IT company would benefit when something did go wrong – now they only benefit when everything is working as it should.
- Predictable IT spend allows you more control over your business budget. Fewer surprises mean more money can be directed into channels that allow your business to grow and expand.
- Stress Free approach to your IT. Make your IT infrastructure work FOR YOU instead of the other way around.

What does it cost?

- From \$250 per month. Contact us today for an assessment of your current network and a quote for ongoing support.
